I. Introduction

The purpose of this collection development policy is to provide guidelines for the development and maintenance of library materials including selection, on-going maintenance and challenges to the library collection. This policy helps to ensure consistency among those who have responsibility for developing the collection, as well as to communicate the library’s policies to faculty, students, and other members of the college community. The library encourages all faculty, staff and students to submit recommendations regarding collection development.

II. Mission of Victor Valley College & the Library

The mission of Victor Valley Community College is to:

- Cultivate intellectual growth, social responsibility, environmental stewardship, cultural enrichment, and economic development.
- Create exceptional and accessible lifelong learning opportunities that afford students within our expanding communities the attainment of knowledge and skills necessary for success in the global economy.
- Embrace difference in our communities by integrating their wealth of multicultural knowledge and wisdom into a cohesive and resourceful learning environment for all.
- Inspire innovative teaching and service with imaginative uses of collaboration and technology, fostering vibrant programs that are measurably effective in addressing student learning and community needs.
- Empower each student to learn by modeling academic integrity, democratic citizenship, and meaningful contribution to society.

The mission of the VVC Library is to support and assist the institution, its students, faculty and administration, in attaining the educational goals stated in the College’s mission statement. The Library will carry out this function by providing access to a diverse collection of print and electronic resources and an integrated program of service, resource management, assessment, and instruction for information literacy.

III. Responsibility for Collection Development

Faculty librarians are responsible for the development and maintenance of the library’s collection. The library is supervised by the Dean of Instruction, Distance Education and Library Services. All faculty are encouraged to contribute to building the library collection by reviewing current
holdings and recommending materials to support the college’s course offerings. Faculty regularly review the collection and recommend new library resources as part of the Curriculum Committee procedures for updating and adding new courses. Every effort will be made to accommodate faculty requests that are within the scope of the library’s collection development policy.

IV. Library Users

VVC students, faculty and staff are the primary users of the library’s collection. Demographics (from the Institutional Research Department, Quick Facts Fall 2015) for the student population are:

- Gender: 58% female, 42% male;
- Ethnicity: 28% white, 50% Hispanic, 13% African American, other ethnicities are less than 10%;
- Age: 38% are 18-20 years, 25% are 21-25 years, 11% are 26-30 years, 12% are 31-40 years, 6% are 41-50 years;
- Units attempted: 31% enroll in 6.0 units or less; 34% enroll in 6-12 units; 35% enroll in 12 or more units.

As the only academic library in the Victor Valley high desert area, the library is used by a secondary group including local high school students, other college students, and community residents who may check out materials by joining the Friends of the Library.

V. Scope

The collection supports the community college undergraduate curriculum for general education, basic skills, English as a Second Language, and a variety of career technical education programs offered by the college.

VI. General Guidelines for Selections

Materials are selected based on need, suitability, availability and/or cost, according to whether the material is:

1) **ESSENTIAL**
   Includes the core collection essential for a community college library and the specialized materials needed by students for their lower-division level research.

2) **IMPORTANT/EDUCATIONAL**
   Less closely related to existing instruction, but facilitates and enriches course work, or includes general educational resources in subject not covered by specific classroom instruction.

3) **USEFUL**
   Not basic or central instruction. May fulfill individual needs but is likely to be highly specialized.

4) **MARGINAL**
   Not necessary or appropriate.
VII. Criteria for Acquisitions

The following criteria should be considered when acquiring materials.

**General criteria for library acquisitions:**
1) High quality in scholarship, authoritative, content format, literary merit.
2) Permanent value.
3) Currency and timeliness of the information.
4) Appropriateness for community college use.
5) Balance of current holdings—representative materials on all sides of an issue.
6) Value as a classic or outstanding work in a field.

**Additional criteria for books:**
1) Reviews in relevant sources, such as academic or trade journals of the field, or library review aids such as *Library Journal* or *Booklist*.
2) Fiction should be selected with an emphasis on its use in the formal study of literature or its impact on social and political thought, philosophical ideas, and wider values or contemporary relevancy.
3) Hardcover editions should be preferred over paperbacks.
4) Textbooks adopted for classroom use should not be purchased unless they are classics in the field. This does not exclude other supplemental reading selected by instructors for classroom assignments.
5) In general, the library does not acquire multiple copies of the same materials. Multiple copies of faculty requests or donations of popular titles may be added.

**Additional criteria for periodicals:**
In addition to the general criteria for library acquisitions, the following specific requirements should be considered for periodicals purchase:

1) Academic journals are preferred over popular or general magazine titles.
2) Journals which do not support a specific element of the curriculum may be purchased if they contribute to the general liberal education of students by presenting an informed discussion of public affairs, economic, social, or political events, scientific or technical knowledge, literature, criticism, or the arts.

**Additional criteria for electronic resources:**
The library is responsible for maintaining online database subscriptions, whether or not grants and state categorical funding support them. Librarians will evaluate each database, review its statistical usage, and determine the continuation of its subscription at a time of renewal. A database that has not been frequently used may be discontinued. The library participates in the Community College Library Consortium for purchasing database subscriptions when possible. Selection criteria for databases include:

1) Curriculum and Research Relevant
2) Content/Format
3) Search Interface
4) User Support
5) Availability/Accessibility of Service
6) Cost

VIII. Donation Policy

Donations are added only when they strengthen the collection and impose no significant limitations on housing, handling, or disposition of duplicate or damaged items. Guidelines for evaluation of donations are the same as those for selecting purchased materials. Donated items accepted but not added to the collection will be added to the Friends of the Library annual book sale. The library will not issue appraisals of donated items for tax or any other purpose.

IX. Maintenance of the Collection

Weeding
Weeding is the withdrawing of damaged or obsolete materials from the library’s collection, a process which is an integral part of collection development and maintenance. In general, the same criteria apply to weeding as apply to the selection of new materials. Additional criteria include: currency; appearance; condition; duplication; superseded editions; usage.

Lost Items and Replacements
Resources that are missing, lost, or withdrawn due to deterioration are not automatically replaced. Materials may be replaced based on the following criteria:

1) Importance of the item to the collection.
2) Demand for the material.
3) Availability.

X. Resource Sharing

The library’s membership in OCLC provides shared resources through interlibrary loan (ILL) for current students, faculty and staff. ILL is intended for academic research and is limited to items that are not part of the VVC library collection. The library is a member of the Inland Empire Academic Libraries Cooperative (IEALC,) which provides current students with borrowing privileges at college and university libraries in the local region, including California State University at San Bernardino.

XI. Academic Freedom

The library upholds the American Library Association’s guiding principles related to patrons’ rights, including the “Library Bill of Rights,” “Freedom to Read Statement,” and “Intellectual Freedom Principles for Academic Libraries” policies. The collection is available to all potential patrons of the library, and should offer diverse viewpoints, regardless of the popularity of those perspectives, or of the sex, religion, political philosophy, or national origin of their authors.
No censorship will be exercised on the basis of frankness of language or the controversial manner an author may use in dealing with religious, political, sexual, social, economic, scientific, or moral issues.
ALA REQUEST FOR RECONSIDERATION OF LIBRARY RESOURCES

The Dean of Instruction, Distance Education and Library Services is responsible for the daily operation of the library. The dean has delegated the responsibility for selection and evaluation of library resources to the faculty librarians. If you wish to request reconsideration of library resources, please return the completed form to the Library Department Chair.
